

Mustafa Yesil

Date of birth: 22/07/2004 | Place of birth: Hall in Tirol, Austria | Gender: Male |
Nationality: Austrian, Turkish | Phone: (+90) 5510015656 (Mobile), (+43) 6601174993
(Austrian Mobile Number) | Email address: myesil042@gmail.com | Passport: U5147834
| Work permit: Türkiye, Austria | LinkedIn: www.linkedin.com/in/mustafa-ye%C5%9Fil-7600ba2a8 | Whatsapp Messenger:
+905510015656 | Address: Anton-Auer-Straße 3 Top 6, 6410, Telfs, Austria (Home)

About myself

Currently pursuing my degree in Computer Engineering at AGU, I am passionate about understanding how systems work—both in code and in hardware. This curiosity extends to my hobbies, where I spend time repairing and collecting retro consoles. When I'm not behind a screen, you can find me exploring trails on my mountain bike or on the road with my motorcycle. I am looking for opportunities to apply my technical skills in a dynamic environment.

Education & Training

Bachelor's Degree | Abdullah Gül University | 28/08/2023 - Current | Kayseri, Türkiye

Software Development: Object-Oriented Programming (Java), Mobile Application Development (Flutter/Dart), and Data Structures & Algorithms.

Hardware & Digital Design: Digital Logic Design, VHDL modeling, and implementation on FPGA boards (e.g., Basys3).

Mathematics & Theory: Linear Algebra, Discrete Mathematics, and Boolean Algebra.

Level in EQF: 6

Skills

Microsoft Word | Microsoft Excel | Google Drive | Social Media | Java (computer programming) | use object-oriented programming | Team-work oriented | database development tools | data structures | Data Structures & Algorithms | SQL | C | Python | VHDL | FPGA Programming | Digital Logic Design | Circuit Simulation | Video Editing | Social Media Management | Hardware Repair

Language Skills

Mother tongue(s): **Turkish**

	Understanding		Speaking		Writing
	Listening	Reading	Spoken production	Spoken interaction	
English	B2	B2	B2	B2	B2
German	B1	B1	B2	B2	B1

Volunteering

Toplum Gönüllüleri | 28/02/2025 - 10/03/2026 | Kayseri

Volunteer Experience

Social Media Coordinator & Active Participant in Community Volunteers Foundation (TOG) – Abdullah Gül University Community 2025-2026

- **Social Media Management:** Served as the Social Media Coordinator, managing digital presence and outreach for the university's volunteer community.
- **"Inventor Kids" (Mucit Çocuklar) Project:** Actively participated in a series of 6 activities designed to introduce engineering fields to children with limited opportunities in rural areas.

- **"Heart to Heart Tournament" (Gönülden Gönüle Turnuva) Project:** Facilitated 6 events focused on improving the motor skills and social engagement of elderly residents in nursing homes.
- **"Journey to Hope Cap by Cap" (Kapak Kapak Umuda Yolculuk) Project:** Contributed to an environmental and social responsibility initiative involving plastic cap collection across 12 dormitories and the university campus, in collaboration with Talas Municipality.

Projects

SafeZone Mobile App | 01/11/2025 - 10/01/2026

Technologies: Flutter, Firebase (Auth & Firestore), OpenStreetMap (OSM), Notification Worker

- **Civic Tech Solution:** Engineered a cross-platform mobile application to bridge the communication gap between citizens and municipal authorities for reporting road damage, hazards, and lost pets.
- **Open-Source Geospatial Integration:** Implemented **OpenStreetMap (OSM)** to provide precise, real-time location tagging and visualization of neighborhood issues, ensuring an accessible and open-source mapping solution.
- **Secure Authentication:** Integrated **Google Authorization (OAuth 2.0)** for a secure, streamlined user onboarding and verification process.
- **Asynchronous Communication:** Developed a **Notification Worker** system to manage real-time alerts for both users and municipal forces, optimizing background task performance and ensuring rapid response.
- **Impact-Driven Engineering:** Aligned project goals with **SDG 11 (Sustainable Cities and Communities)** to promote urban safety and resilience through data-driven reporting.

NexCar Fleet Management | 01/02/2026 - 01/06/2026

NexCar is a web-based car rental and fleet management system that connects the users with various rent-a-car companies. It streamlines vehicle reservations for customers while providing staff with tools to efficiently manage daily fleet operations, maintenance, and availability.

I co-developed this project with my teammates Emre Akda and Mahmut Sami E. during my Software Engineering course as our term project.

Flutter 2D Action-Adventure game (Name not decided yet) | 29/04/2026 - Current

Tech Stack: Flutter, Flame Engine, Dart, AI-Assisted Development

- **Core Architecture:** Developing a 2D action-adventure game from scratch using the Flame engine, implementing modular components for player mechanics, world objects, and dynamic systems.
- **Gameplay Mechanics:** Engineered a responsive combat and defense system featuring state-driven sword-swinging and shield-blocking actions, integrated with synchronized real-time sound effects and immersive background music.
- **Collision & World Design:** Implemented explicit collision handling and bounding box logic between the player sprite and environment assets (trees, rocks) to manage physics boundaries and prevent asset clipping.
- **Dynamic Camera System:** Programmed a smooth, frame-shifting camera mechanism inspired by classic top-down adventure games (e.g. *The Legend of Zelda*) to seamlessly transition viewport boundaries as the player navigates the map.
- **Agile AI Integration:** Leveraged generative AI tools to accelerate the development lifecycle, optimizing asset generation, rapid prototyping, and animation logic pipelines.

Hobbies and Interests

My Hobbies

In my personal time, I am an avid mountain biker and motorcyclist who enjoys exploring the outdoors. I also have a keen interest in retro culture, particularly in collecting and playing classic handheld gaming consoles. I have also some additional interests such as traveling the world, skiing, cars etc..
